

AARDESTRUP I.

The effect of sheanut oil on serum lipids and lipoproteins in normocholesterolemic and mildly hypercholesterolemic humans – 3, 14

ALBION ADVANCED NUTRITION

Differentiating chelates. Understanding the process of chelation and the benefits it offers to human nutrition – 5, 8

ALEKSEEVA M.F.

Melanins from bees and black tea – 3, 32

ALONSO-CALLEJA C.

Cholesterol intake in adult Spanish populations – 1, 43

ALVES-RODRIGUES A.

The role of lutein in the prevention of cardiovascular disease – 2, 32

BADMAEV V.

Nutrient absorption and bioavailability - A new emerging paradigm for prevention and self-care – 2, 2

Skin and its role in providing nourishment to the body – 4, 4

Open field, physician controlled evaluation of nutritional bar in management of non-insulin dependent diabetes mellitus (NIDDM) – 5, 29

BRAAM L.A.J.L.M.

Potential applications of vitamin K-containing products – 5, 13

BROWN C.A.

Marketing functional foods with health claims in the United States – 5, 50

BRYHN M.

Eating fish associated with reduced risk of ischemic stroke in men – 1, 42

Quality and safety of omega-3 products – 2, 36

Marine omega-3 fatty acids are the preferred source of EPA and DHA in humans – 3, 20

Omega-3 fatty acids prevent the development of dangerous atherosclerosis – 4, 41

Marine omega-3 fatty acids for treatment of mental depression – 5, 6

Effects of omega-3 fatty acids on mental health – 6, 32

BUCHWALD-WERNER S.

Beauty inside and out – 5, 2

CAPITA R.

Cholesterol intake in adult Spanish populations – 1, 43

CHAUDHARY J.

Standardization and evaluation of traditional medicine – 3, 42

CHERKASOVA E.I.

Melanins from bees and black tea – 3, 32

CHRISTENSEN J.H.

The effect of sheanut oil on serum lipids and lipoproteins in normocholesterolemic and mildly hypercholesterolemic humans – 3, 14

COOPER J.T.

Open field, physician controlled evaluation of nutritional bar in management of non-insulin dependent diabetes mellitus (NIDDM) – 5, 29

DEDMAN J.

Sports nutrition – Market potential with fructose – 5, 54

DUBER-SMITH D.C.

Natural cosmeceuticals: A Boon to U.S. personal care growth – 1, 6

DUPONT PROTEIN TECHNOLOGIES

The importance of bioactive components – 2, 18

Soy protein health claim – 2, 25

Soy protein essentials – 3, 22

Soy protein and heart health – 4, 32

Infant feeding – 5, 37

Soy protein and women's health – 5, 47

Soy protein and cancer – 6, 36

DUTKA G.

Review of skin lightening products used in the personal care, cosmeceutical, and pharmaceutical industry – 1, 13

FROST & SULLIVAN

Expanding European probiotics market continues to face low consumer awareness – 6, 26

GRUENWALD J.

Promising future of European proprietary soy products – 2, 42

HOPIA A.

Taste, convenience and heart health – with plant stanol ester – 6, 11

HUANG T.

Cosmeceuticals – 1, 9

IISAKKA K.

Nutraceuticals and functional foods demand for ingredients – 6, 2

JONES M.

Controlled delivery technology in nutraceutical applications: a users perspective – 3, 7

Natural-source vitamin E in skin care products – 4, 10

Soya and osteoporosis – 4, 26

KARST K.

What to look for in a quality EFA product – 2, 28

KIRILENKO Y.K.

Melanins from bees and black tea – 3, 32

KLUIFHOOF T.J.D.

Proving the health benefits of probiotics – 5, 56

KNIGHT D.J.

Regulation of cosmetics in Japan – 3, 39

KRITCHEVSKY D.

Caloric restriction and experimental carcinogenesis – 3, 24

KUZNETSOV M.V.

Melanins from bees and black tea – 3, 32

LANET J.

Health products and ISO 9000 serie norms – 2, 22

LANHAM K.M.

Web-based business model offers new silicone options – 4, 12

LE BIHAN C.

Starches for sauce applications – 2, 44

LE POOLE H.A.C.

Bioavailability and pharmacokinetics of quercetin aglycone and glycosides rutin and isoquercitrin – 6, 6

LE POOLE R.A.C.

Antioxidants against oxidative stress in obesity and diabetes – 5, 17

LUND JACOBSEN B.

Probiotics and their current use – 6, 17

LURTON L.

Grape polyphenols: The assets of diversity – 5, 39

MAJEED M.

Nutrient absorption and bioavailability - A new emerging paradigm for prevention and self-care – 2, 2

Skin and its role in providing nourishment to the body – 4, 4

Open field, physician controlled evaluation of nutritional bar in management of non-insulin dependent diabetes mellitus (NIDDM) – 5, 29

MARTINS D.S.

Antioxidants in human health – 5, 22

MATTHEWS I.

Trends in bodycare – 1, 18

Review of Trends Presentations at in-cosmetics 2003 – 4, 2

MCCOLL J.

Review of skin lightening products used in the personal care, cosmeceutical, and pharmaceutical industry – 1, 13

Cosmeceutical and nutraceutical uses of willowherb (*Epilobium angustifolium*) – 2, 38

Health benefits of omega-3 fatty acids – 4, 35

MEDHEKAR R.

Soy isoflavone and Isolase™ – 2, 10

MELLERUP J.

The effect of sheanut oil on serum lipids and lipoproteins in normocholesterolemic and mildly hypercholesterolemic humans – 3, 14

MESSINA M.

Soya isoflavones and breast health – 2, 6

MESTERS P.

Lactitol: Making low glycemic foods possible – 5, 34

MICHAUD J.

Erythritol excipient – 1, 47

MITCHELL H.

Prebiotics – 6, 20

MOHEDE I.

The beneficial effects of Clarinol™ CLA (conjugated linoleic acid) on body composition – 5, 25

NELSON CORTES H.

Conjugated linoleic acid – A declining natural dietary asset – 3, 3

NEVEN L.

Lignans from flax – A solution for men's health only? – 3, 10

NEXMANN LARSEN C.

Probiotics and their current use – 6, 17

NORTHLAND ORGANIC

Company Profile – 2, 46

NuSa

Scientific evidence is just the beginning – 6, 30

Science proves food marketing has to change – 6, 38

PASTUHOV M.O.

Melanins from bees and black tea – 3, 32

PRAKASH L.

Open field, physician controlled evaluation of nutritional bar in management of non-insulin dependent diabetes mellitus (NIDDM) – 5, 29

PRIEST D.

LEMA® - A new natural high performance antibacterial – 1, 39

ROOYAKKERS M.

A multifunctional sweetener: Introducing Frutalose™ – 5, 58

SALO P.

Taste, convenience and heart health – with plant stanol ester – 6, 11

SANONER P.

Pomactiv® – Apple bioflavonoids: antioxidant health protective food factor – 3, 28

SCHMIDT E.B.

The effect of sheanut oil on serum lipids and lipoproteins in normocholesterolemic and mildly hypercholesterolemic humans – 3, 14

SCHURGERS L.J.

Potential applications of vitamin K-containing products – 5, 13

SCOGLIO S.

Aphanizomenon Flos Aquae – 2, 14

SOUILLOL V.

Grape polyphenols: The assets of diversity – 5, 39

STONE W.L.

Cosmeceuticals – 1, 9

TAYLOR F.

Cysteine peptide – Energy, motivation and sleep – 5, 44

TIIHONEN K.

Prebiotics – 6, 20

TIMMERMANN F.

Plant sterols and sterol esters: Their benefits in heart health – 4, 29

TOVBORG-JENSEN S.

Probiotics and their current use – 6, 17

VAN DIJK A.

Genomics facilitates new process and product development – 3, 36

VERMEER C.

Potential applications of vitamin K-containing products – 5, 13

ZWIER H.J.

Antioxidants against oxidative stress in obesity and diabetes – 5, 17
