

A

ADVANCED BIOCHEMICALS Ltd
Where biotechnology is life... - Interview to C.L. RATHI - 6, 51

ALEXOPOULOS C.
Innovative, advanced, multidimensional (Sequential Oligopeptide Carriers) SOCN-I,II technology: Applications-functions-perspectives - 4, 16

AMIN LAW
Legal News - 1-2, 30; 3, 43

B

BASF
Contract manufacturing by BASF. Your expertise advantage - in *Company Profiles*, 2

BIOCATALYTICS
Company Profile - 5, 21

BIOCON
Challenging boundaries in biotechnology - Interview to K. MAZUMDAR-SHAW - 6, 48

BIRCH WORLD Ltd.
The study of antimutagenic effect of the birch bark extract containing betuline - 4, 11

BLASER H.-U.
Fourth Solvias Science Day - 3, 10

BOAM A.
Organic solvent nanofiltration in organic synthesis and chemicals manufacture - 4, 57

BOEDEKER B.
BayerPharma Biotechnology: 20 years of experience in recombinant protein development now available to external clients - 7-8, 10

BRAIER P.A.
The ABCs of ANDAs: A primer on the generic drug approval process in the United States - 6, 8

BRAUN R.
White biotechnology - An ongoing challenge - 6, 16

BROXTERMAN Q.B.
ChiralTree®: Building chiral product families based on chiral competences - 11-12, 18

BUGGLE I.
New active substances plateau in 2004 - in *Worldwide Pharma Chem Directory*, 18

C

CAIMI P.
Adsorptive and chromatographic separations of life science molecules. Part I - Selection of adsorbent - 10, 52

Adsorptive and chromatographic separations of life science molecules. Part II - Process design and scale-up - 11-12, 36

CANSELIER J.P.
Cloud point, critical micelle concentration and HLB relationships for alcohol ethoxylates - Surfactants & Detergents Directory - (3), 2

CHILTERN Intl.
India goes from strength to strength - 1-2, 41

Shaking off Japan's R&D jitters - 3, 9

Now is the time to demystify interim management - 9, 26

Japanese R&D under the spotlight - in *Worldwide Pharma Chem Directory*, 22

CHIRAL QUEST
Company Profile - 5, 2

CODEXIS
Company Profile - 6, 22

COLAS A.
Silicones in new pharmaceutical developments, from formulations to manufacturing processes - 10, 46

CONICELLA F.
The public politics of sustentation of the biotechnological field and the importance of the start-up of innovative companies - 7-8, 2

CONTO A.
Alternatives to animal testing, a current challenge - 10, 38

D

DAMINATI M.
Adsorptive and chromatographic separations of life science molecules. Part I - Selection of adsorbent - 10, 52

Adsorptive and chromatographic separations of life science molecules. Part II - Process design and scale-up - 11-12, 36

DANISCO
Danisco Sweeteners: An international name in speciality sweeteners, helping to turn ideas into successful products - in *Company Profiles*, 5

DEEPAK NITRITE
Improving life through innovative science - Interview to D.C. METHA - 6, 53

DEGUSSA
A forest of reasons - in *Company Profiles*, 6

Six Sigma - The key to collective high performance at the Schalchen site - 7-8, 26

DEITING U.
Proferm Project House uses unique robotic system. High-throughput screening in the climatic chamber - 10, 57

DJEDAÏNI-PILARD F.
Amphiphilic cyclodextrins - From a general concept to properties and applications - 1-2, 4

DUARTE L.J.N.
Cloud point, critical micelle concentration and HLB relationships for alcohol ethoxylates - Surfactants & Detergents Directory - (3), 2

E

EACHUS A.C.
Major challenges for the pharmaceutical industry in 2005 - 7-8, 33

ERMENS H.
Pharmaceutical excipients: The past and future - 9, 23

EUTICALS
Euticals Group - in *Company Profiles*, 10

F

FEDERSEL H.-J.
Chemical process design in transition: Current trends in the

pharmaceutical industry - 11-12, 4

FRAIRE C.
Patenting polymorphs in Europe - 10, 14

FROST & SULLIVAN
Pharmaceutical and biotechnology industry in the 'new' EU countries presents considerable potential, parallel imports remain a challenge - 3, 22

Genomics and proteomics to increase the efficiency of drug discovery and development - 5, 10

Pharmaceutical industry faces multiple challenges. Future lies in drug pipeline sustainability - 6, 4

Cost-effective R&D outsourcing attracts global pharmaceutical industry to India and China - 9, 2

Cost issues compel pharmaceutical companies to make drug development more financially viable - in *Worldwide Pharma Chem Directory*, 4

G

GAO L.
Design and synthesis strategies for old and new glycosidase inhibitors - Chirals Directory - (5), 1

GRÖGER H.
Highly efficient and economical. Designer cells produce enantiomerically pure compounds - 9, 6

GROUPE NOVASEP
Two networks one aim: Serving the life science industries - 4, 43

H

HAHN R.
Zinc oxide, cerium oxide, indium tin oxide. Product range keeps growing in the nano world - in *Worldwide Pharma Chem Directory*, 8

HEL SINN
Company Profile - in *Worldwide Pharma Chem Directory*, 20

HERLAN G.
Comprehensive information on amino acid sequences in STN databases - 9, 14

HERLAN G.
From classic biotechnology to genetic engineering - The whole spectrum of information on STN International - 3, 17

HIRANI B.R.
Chirality in synthetic agrochemicals and pharmaceuticals - in *Worldwide Pharma Chem Directory*, 14

HOFF A.
New designer compounds for more efficient chemistry - 4, 50

HOFFMANN-LA ROCHE
Molecular medicine: Genetics, genomics and proteomics for diagnosis and therapy - 1-2, 22

Main avenues of research - 11-12, 45

HOLLINGSWORTH R.I.
Design and synthesis strategies for old and new glycosidase

inhibitors - Chirals Directory - (5), 1

HYETT D.J.
ChiralTree®: Building chiral product families based on chiral competences - 11-12, 18
