## P

### PANDEY D.

Nanotubes: A newer approach in cancer therapy – An overview – 1-2, 16

### PANDIT P.

Statins for all – 4, 22

### PEACOCK M.

Avoid overstocking the stockroom – Save your R&D budget – 7/8, 20

### PERLMUTTER B.A.

A review of filter press basics and issues versus alternative batch or continuous replacement technologies – 5, 33

A treatise of filter cake washing mechanisms in pressure and vacuum filtration systems – 6, 22

### PETEREIT H.-U.

Conveying active ingredients to the cell interior – 5, 8

### PLASTIAPE

Multi-monodose dry powder inhaler: A clear example of the designing ability that Plastiape provides its customers with – 11/12, 16

### POLASTRO E.T.

Will biodiesel be ever competitive as a fuel? – 6, 8

### POSSUMATO A.

New pharmaceutical applications demand intelligent sorbents – 4, 30

## R

### RAJENDRAN R.

L- and D-homoserine and related C4-chiral blocks – 7/8, 10

### RAMACHANDRAN G.

Infectious diseases market: Tracking the implications of new technologies – 4, 6

### REHFINGER A.

Microreactor – A key future technology.  $\mu$ Pro.Chem – Microprocess engineering for process intensification in chemical production – 7/8, 2

### ROCHE DIAGNOSTICS

Transplantation safety: New virus detected using genome sequencer technology – 1-2, 7

New Analytica Research Prize from Roche and the GBM strengthens research in Germany – 3, 31

MWG Biotech purchases second Genome Sequencer FLX system to expand capacities in line with growing sequencing demand – 4, 19

Top European service provider GATC Biotech ramps up its fleet of Next-Gen sequencers with second Genome Sequencer FLX system from Roche – 4, 19

Researchers use 454 Sequencing to publish the complete genome of an individual human, achieving a key milestone on the path to personalized genome sequencing – 4, 20

Roche NimbleGen ENCODE Arrays: The Most sensitive platform for ChIP-chip experiments – 5, 29

Roche Diagnostics licenses the technology used for the LightCycler System to Biotecon – 5, 29

Reconstructing Oetzi's, the Neolithic man family tree with 454 Sequencing – 5, 30

454 Sequencing for melon research in Spain – 6, 30

454 Sequencing used at Institute of Genomics & Integrative Biology (IGIB) in India – 6, 30

454 Sequencing joins the International 1000 Genomes Project – 6, 31

One Run – Done: 454 Sequencing quickly reveals detailed insights into the physiology of *Corynebacterium kroppenstedtii* – 6, 31

Label-free measurement of natural killer cell cytotoxic activity in real-time with the new xCELLigence System from Roche – 7/8, 18

454 Sequencing at the forefront of bone marrow and stem cell therapy research – 7/8, 18

Roche Diagnostics licenses melting curve analysis technique to Agilent – 9, 32

Roche NimbleGen CGH arrays enable detection of the genomic disorder resulting in diabetes – 9, 32

Roche's xCELLigence System: key technology for analysing cells and drug mechanisms – 9, 33

Agowa genomics adds the Roche Genome Sequencer FLX system to its sequencing portfolio – 9, 33

Roche's xCELLigence System offers dynamic and label-free assessing of kinase activity in living cells – 9, 34

250th peer-reviewed publication documents the success of 454 Sequencing – 10, 12

Heritable mutations of ALK main cause of familial neuroblastoma – 10, 12

Roche 454 Life Sciences and Integrated DNA Technologies to enter worldwide exclusive agreement for primer design and supply – 10, 13

Roche Nimblegen launches CGH 12x135k microarrays for detection of copy number variation – 11/12, 33

High-throughput online-measurement of cell activities without labeling: The new xCELLigence RTCA MP instrument – 11/12, 33

Discovery of mysterious microbe offers new insights into ocean ecosystem – 11/12, 34

Nature study uses 454 Sequencing to reveal surprising new clues into the role of microbial communities in the human gut – 11/12, 35

Open-source analysis tool enables rapid annotation of metagenomes – 11/12, 35

### ROPELLA P.

Keeping the peace – Embracing the divas, slackers, pushovers, bullies and drama in your organization – 1-2, 2

Motivational management: Retaining technical professionals – 3, 12

Motivation secrets – 4, 2

Listening between the lines – Avoid catastrophic hiring mistakes by simply learning to listen – 5, 2

Managing leadership stress – 6, 2

Build a REAL "Dream Team" – Practical advice for creating and managing dynamic, effective teams –

7/8, 6
